### **WELL CONTROL SCHOOL RELOCATES LAFAYETTE TRAINING CENTER TO LARGER FACILITY**

November 30, 2015 (Houston, Texas) – Today Well Control School (WCS), a leading provider of accredited well control training, announced the relocation of its training center in Lafayette, Louisiana to 425 Settlers Trace Boulevard. WCS will hold its first classes in the new center on November 30th.

The larger training center will enable WCS to provide more accredited courses for the IADC WellCAP®/WellSharp™, IWCF and WCS certification programs. In addition to classroom space, the training center includes state-of-the-art simulators and computer stations for its System 21 e-Learning programs. “This new ultra-modern training center elevates our commitment to providing the best learning environment for adult learners,” says Ed Geissler, President of Well Control School. Geissler says WCS will hold an open house on January 8, 2016 at 11 a.m. for current and prospective customers to tour the training center.

The Lafayette facility is located within close proximity to Broussard, Youngsville, Lafayette Regional Airport, numerous restaurants and shops. For directions and a complete list of courses offered at this training center, visit [www.wellcontrol.com](http://www.wellcontrol.com).

**About WELL CONTROL SCHOOL:** Since 1979, International Training Services dba Well Control School (WCS) has designed and delivered accredited well control training products and services to the global oil and gas industry. Training curricula includes The Well Control School, International Well Control Forum (IWCF), and International Association of Drilling Contractors (IADC) WellCAP®/WellSharp™ accredited courses in drilling, workover/completion, snubbing, wireline and coiled tubing operations with instructor-led and System 21 e-Learning delivery formats. WCS is ISO 9001:2008 certified and an ANSI/IACET 1-2007 Accredited Provider. For more information, please visit [www.wellcontrol.com](http://www.wellcontrol.com) or call 713.849.7400.
